

# EARTH DAY CELEBRATION AT W.V.M

Earth Day is an Annual observance held on April 22nd every year to increase public awareness about the environment.

Keeping in mind the importance of Earth Day, a special assembly was organised by the students of Class XII to inspire awareness and appreciation for the Earth's natural environment. The students performed a mind provoking skit on the life of Indian Farmers which sent across a strong message. Inspirational speeches and heart touching poem related to the theme were also presented.

The tiny tots of pre-primary too came dressed up in blue attire to support the theme 'Save Mother Earth'. Various educational activities were organised for the little ones by their teachers. It was a great way to showcase environmental education and to engage the students in making a difference.
