

FANCY DRESS COMPETITION

(For Students of Grade II)

W.V.M is always motivating the students to participate in extracurricular activities. Keeping this in mind a fancy dress competition was organised for the students of Grade II. The theme was 'Reuse, Reduce and Recycle'.

The students came dressed up in different attires related to theme and also spoke a few lines on the topic they were representing. Each one of them walked in with full confidence and conveyed the message. The enthusiasm and interest which the children showed was clearly reflected through their costumes. The little ones revealed their hidden talents on the stage.

The hard work and thought of the parents was visible through the creative and hand-made costumes worn by the children was really appreciable. The children did not only enjoy themselves but learnt a lot.

The winners of this competition are as follows -
