

NATIONAL MATHEMATICS DAY CELEBRATION AT W.V.M

22nd December the birth anniversary of Srinivasa Ramanujan is celebrated as National Mathematics day. This day is observed to pay tribute to the great mathematician of India and their memorable contributions.

Maths week was celebrated with enthusiasm and valor at W.V.M. Students participated in the activities with zeal and zest.

On this occasion the activities arranged for all the Classes were to promote rationality and critical thinking among students. Mental math, board decoration, brain teasers, puzzles, assembly presentations, skit performances were the highlight of the week.

The students of Grade XI came together to organise a special assembly to celebrate this special day. They were guided by Ma'am Seryn Jospeh and the Maths Dept. The aim of this celebration was to create awareness about the importance of mathematics in day to day situations and also to create students interest in studying Maths.

The assembly began with a prayer song sung by the girls of Grade XI. This was followed by a special Math news given by Smit Choksi of Grade XI. A unique way of learning mathematics through a dance was presented beautifully by the students. A short skit revolving around the famous mathematician Aryabhata was enacted. The impact of Aryabhata was deeply rooted in the skit and the humorous, yet effective, nature of the skit sent across many noble lessons. The skit was written by Chirag Jethwa, Kartik Bhatia and Ankit Shrivastava. Songs related to BODMAS and other mathematical concepts were also sung.

Students prepared different projects related to their syllabus which were displayed in the school reception area and the Maths Lab.

Principal Ma'am Kavita Tandon appreciated the students and the Math Dept for conducting various activities throughout the week and for the wonderful assembly. The assembly ended with the National Anthem.

A report from W.V.M.
