

NATIONAL MATHEMATICS DAY CELEBRATION AT W.V.M

22nd December, the birth anniversary of Srinivasa Ramanujan is celebrated as National Mathematics Day across our country. This day is observed to pay tribute to the great mathematicians of India and their memorable contributions.

The students of Grade X came together to organize a special assembly to celebrate this special day at W.V.M on 22nd Dec'17. They were guided by Ma'am Seryn Joseph. The aim of this celebration was to create awareness about the importance of mathematics in day to day life situations and also to create students interest in studying Maths.

The assembly began with a prayer followed by a special maths news given by Saksham Pandey of Grade X B. A unique way of learning Mathematics, through a *bharatnatyam* dance was presented beautifully by the students. A short skit depicting the life of S.Ramanujan was also enacted by the students. A melodious musical composition called The Quadratic Formula Song was performed by the students of Grade X B. Later on the Maths Department held a Maths exhibition which included various projects on ancient mathematicians, vedic maths, mathematical concepts etc.

Principal Ma'am Kavita appreciated the students for organising such a wonderful assembly. Ma'am also explained the importance of Maths and encouraged the students to take it seriously.

It is truly said, 'Just as a mountaineer climbs a mountain because it is there, so a good mathematics student studies new material because it is there'.

A Report from W.V.M.
