

## **EDUCATIONAL TRIP**

### **CLASS XI**

The educational visit to Adani Wilmar Plant on the 9th of January 2023 proved to be a profound and enriching experience for our students of Grade XI. We extend our heartfelt gratitude for the warm hospitality and invaluable insights provided during the factory tour, guided by Ma'am Jaya Hingorani and Sir Bhavin Soni. The students had a unique opportunity to witness firsthand the various activities and large-scale business operations at the plant, gaining insights into the intricacies of the industry.

The visit included a brief exposure to the Adani Walmart Plant, further broadening the students' understanding of diverse business operations. This extension allowed them to observe the collaborative efforts and systematic organization at the Adani Walmart facility, contributing to the comprehensive educational experience. The tour included a detailed explanation of the refining process, from the initial raw materials to the production of high-quality products. The students were particularly fascinated by the innovative methods employed for waste utilization, showcasing a commitment to sustainability. They also gained a thorough understanding of the packing procedures and marketing strategies, highlighting the importance of these aspects in the overall business operation.

The objective of the visit was to expose our students to real-world business operations, fostering their interest in various enterprises.

The exceptional educational experience has motivated our students to explore diverse career paths and instilled in them a greater appreciation for the world of enterprises. Our teachers and students alike express their admiration for the organized and informative nature of the session.

We anticipate more such informative sessions in the future, fostering a continued partnership between Welspun Vidya Mandir and the Adani Wilmar and Walmart Plants.

A report from W.V.M.
