

EDUCATIONAL TRIPS

Memories of school Educational trips are among the most prominent of the formative years, largely because they are a welcome break in the routine for both students and teachers. While their purpose is essentially to educate, they can also be a fun bonding experience for everyone involved. Going on an Educational trip means more than simply leaving the school grounds. Educational trips always have a major educational element, but the impact of Educational trips can extend much further. Field Trips also connect students to the real world and thus provide real-world experiences. Keeping this in mind field trips were organised during the week for a few classes.

1. The students of class V visited the Veer Balak Smarak on 3rd May '23 during school hours. They were escorted by Ma'am Neeta V, Ma'am Sangeeta, Ma'am Divyashree, Ma'am Jiya and Ma'am Rekha Bhatt. Veer Balak Smarak, (Brave Children Memorial) is a memorial dedicated to the victims of the 2001 earthquake in Anjar. The students were explained about the natural disasters and their impact.

2. The students of Grade III were taken to the Rotary Forest Gandhidham on 4th May '23 during school hours. They were escorted by their Class Teachers. All the students were excited to explore the Forest. They were awestruck by the different types of trees and mesmerized by the beautiful flowers and the natural vegetation. They enjoyed themselves a lot and had a wonderful day.

3. The students of Grade X were taken to Renuka Sugar Mill on 5th May '23 during school hours. They were escorted by their respective class teachers. The students had a hands-on opportunity to have a look at the pragmatic working scenarios in the Sugar Mill. It was a first-time experience for many of them. The technical staff guided the students through the process of obtaining sugar from cane juice. They explored processes such as defecation, juice clarification, evaporation, and crystallization. The trip was full of cognizance and excitement and enhanced the students' practical knowledge. It also cultivated respect for the ones who grow sugar cane and for the ones who work in the sugar factory. Overall it was a great learning experience for the students.
